

SEEDLING LOG BOOK

Different plants and gardens produce varied growing results.
Keep track of your seedlings and see how they all compare.

Seed	When to sow	Typical Sprout Time (days)	Date Planted	Date Srouts Visible	Transplant pot/garden (weeks)	Planting location & growing tips	Ready to enjoy (weeks)	Date harvested
NOTE: When it is time to transplant the particular seedling, keep the seedling in its peat pot and plant it out into a position mentioned below, to encourage blooms and healthy growth.
